

SKANDER BLAITI

SENIOR MOBILE DEVELOPER – REACT NATIVE

skander.blaiti@hotmail.com | +216 51 976 973 | blaiti.com | github.com/blaiti | linkedin.com/in/skanderblaiti

SUMMARY

Senior Mobile Developer with 5+ years of experience designing, building, and shipping production React Native and Expo applications for iOS and Android. Strong background in cross-platform architecture, REST API integration, and state management at scale. Comfortable owning mobile products end-to-end – from development through the store release and compliance – both as a team contributor on distributed international teams and as a solo founder.

TECHNICAL SKILLS

Mobile: React Native, Expo, iOS native modules
Frontend: React, Next.js, Vue.js, HTML5, CSS3, Tailwind CSS
Backend & APIs: Node.js, tRPC, REST APIs, Firebase Cloud Messaging, Supabase Edge Functions
Databases: Supabase (PostgreSQL), Firebase, MongoDB, MySQL
Languages: JavaScript, TypeScript
Tools: Git, Jest, Sentry, PostHog, RevenueCat

WORK EXPERIENCE

iTrend Tunis, Tunisia	Senior Mobile and Web Developer December 2024 – Present
- Built and shipped Borne de Recharge, a community-powered EV charging station locator for the Tunisian market. - Integrated Google Maps and push notification features to support real-time station discovery and updates. - Managed the App Store submission and review process for a new developer account, resolving compliance requirements to secure approval. - Developed a Next.js administration dashboard consuming REST API for internal operations and data management.	

Jobflow GmbH Berlin, Germany – Remote	Founding Mobile Developer August 2023 – Present
- Built and maintained cross-platform mobile applications for iOS and Android using React Native and Expo, owning features across the full app lifecycle through to release. - Led the migration from MobX to React Query, modernizing the state and data-fetching architecture to improve performance, caching, and long-term maintainability. - Integrated Firebase Cloud Messaging for push notifications, PostHog for product analytics, and Sentry for real-time error monitoring, improving visibility into app usage and stability.	

Site 20/20 Nova Scotia, Canada – Remote	Frontend Mobile and Web Developer September 2022 – August 2023
- Developed React Native mobile applications for iOS and Android, building reusable UI components and navigation flows shared across features. - Built responsive Vue.js web applications with Vuex for centralized state management..
